

**PUBLIC NOTICE FOR  
CLEAN WATER ACT 401 WATER QUALITY CERTIFICATION  
BEFORE THE DIVISION OF WATER RIGHTS**

An application for water quality certification under section 401 of the Clean Water Act for the following project was filed with the State Water Resources Control Board (State Water Board), Division of Water Rights. California Code of Regulations, title 23, section 3858 requires the Executive Director of the State Water Board to provide public notice of an application at least twenty-one (21) days before taking certification action on the application. Written questions and/or comments regarding the application should be directed to:

<b>PUBLIC NOTICE:</b>	March 19, 2012
<b>PROJECT STATUS:</b>	Pending

**PROJECT DESCRIPTION:** The City of Yuba City has proposed the Feather River Fish Screen Project as a means to replace an existing unscreened intake structure located on the lower Feather River leading to a low-level pump station (LLPS) on the Yuba City Water Treatment Plant system. The proposed project area encompasses 0.17 acres of riparian and un-vegetated streambed habitat located on the western shore of the lower Feather River in Sutter County. The project will involve the construction of a new screened intake structure, construction of a new 54 inch diameter underground pipeline to the existing LLPS, removal of the existing traveling screen inside of the existing LLPS, improvements to the LLPS to support auxiliary equipment for the new fish screen, removal and decommissioning of the existing unscreened intake, and improvements to the existing access road.
